Instrumentation On Jet Harris & Tony Meehan Recordings

Introduction

This feature seeks to shed some light on the instrumentation used on every recording officially released by Jet Harris & Tony Meehan, Jet Harris as a solo artist and Tony Meehan as a solo artist, recorded in the studio as well as in a live situation.

I have used the same method as with the earlier feature on The Shadows' instrumentation. See the introduction to that feature for more information.

I have divided the feature into six chapters:

Chapter I: “The Primary Albums”. This chapter lists every track from Jet's nine primary UK albums.

Chapter II: “The Primary Singles”. This chapter lists all primary UK singles. The chapter lists all singles, but excludes the matrices for tracks which have been released on the primary albums, as those have been discussed in the first chapter. In this case, I have made reference to the particular primary album, where the track can be found.

Chapter III: “The Primary EPs”. This chapter lists all primary UK EPs. The chapter lists all EPs, but excludes the matrices for tracks which have been released on the primary singles, as those have been discussed in the second chapter. In this case, I have made reference to the particular primary single, where the track can be found.

Chapter IV: “The Primary Videos”. This chapter lists all primary UK videos.

Chapter V: “Miscellaneous Releases”. This chapter lists all tracks, which were first released on releases and various artists releases from the UK and abroad.

Chapter VI: “Alternative Versions And Different Mixes”. This chapter lists all alternative versions and different mixes of tracks.

An **Index Of Titles** is included for ease of reference.
